We, at MINDs EYE DESIGN, undertake a detailed designing process starting from concept analysis, detailed designing, theme identification and development, design supervision and project liaison or turnkey execution to resource allocation and cost estimation.

Exhibition design is customized to suit the organizations' needs and personality. Over the years, MINDs EYE DESIGN has catered to various requirements of companies and trade fairs to create environment which creates an impact on the viewers' mind. And as people leave, corporate gifts designed by us go as a memorabilia to ensure that we are effective even after the trade fair is over.

Similar to the function of a headline in a newspaper, the first impact of an exhibit design must result in this kind of selectivity. And we can help you create that impact.

For a good exhibition design, choose not an architect, an advertising agency or an exhibition supplier but an experienced exhibition designer!
